

## Changes in customer data

A very simple test case, the data in the customer changes to a value in delivery 2 and gets the values from delivery 1 again in delivery 3. The test case is on the KundedID 107

## Customer Changes

The diagram shows a central 'Customer' entity connected to 'Credit Card' and other entities. A 'Data Preview: Historized' window displays the following data:

CUSTOMER_...	KundedID	Vorname	Name	Geschlecht	Geburtsdatu...	Telefon	Mobil	Email	CUSTOMER_S_WS_...
